### Sand Island East Bay Dock Closed

BAYFIELD, WI – Severe storms last fall and winter severely damaged both the public and National Park Service docks on Sand Island at East Bay. As a result, all docks at East Bay are closed in the interest of safety.

An engineering study to determine the best location and design for a replacement dock is completed and funds secured to move forward. Construction will be completed in 2016.

Superintendent Krumenaker states that, “We apologize for the inconvenience this causes to our boaters. However, we are glad that we will be able to replace the public dock with one that will better serve our visitors in the future.”
